Decision, However, Sustains the Indictment and the Former Telephone Official Will Face a Jury for the Third Time.

(Associated Press.)
SAN FRANCISCO, April 14.—By the decision of the district court of appeals handed down today the conviction of Louis Glass, the former vice president and general manager of the Pacific States Telephone company, who was found guilty of offering a bribe to Supervisor Thomas F. Loneragan to influence his vote in the matter of granting a franchise to the telephone company, is reversed and a new trial ordered. The reversal is based on two points, the first is the admission into the trial of evidence not relevant to the case, and the second because Judge Lawlor refused to instruct the jury as was requested by the defense not to allow the refusal of E. J. Zimmer, an official of the telephone company, to testify to influence their minds, nor to view his refusal as an indication that he was withholding evidence which might incriminate the defendant. The decision sustains the indictment under which Glass was tried. The verdict under which Glass was tried was brought in on August 30, 1907 and on September 5, 1907, he was sentenced to five years in San Quentin. He was liberated on bail pending the result of the appeal. The first case against Glass resulted in a mis trial and conviction followed in the second.

A Dozen Attaches of San Francisco District Attorney's Office Lose Their Jobs.

(Associated Press.)
SAN FRANCISCO, April 14.—It was made known today that a dozen attaches of the district attorney's office known as special agents have been dismissed. Included in this number is James Foley, detailed up to this time as one of the two body guards of Francis J. Heney, and who was present and on duty when Heney was shot last November. The announcement caused considerable surprise and comment. It is unofficially explained that the reduction was made in the force because of the completion of the Calhoun jury. William J. Burns, who directs the operation of the force of special agents, departed today for Washington, D. C., where it was stated he had been summoned as a witness in some federal cases pending there.

FRESNO SAYS NO SALOONS; NOW IT'S DRY

(By Associated Press.)
FRESNO, April 14.—Complete returns compiled this morning of the municipal election held yesterday show that the anti-saloon league has triumphed by a total of fifty-seven votes. Dr. Chester Rowell is elected mayor by a large majority over four other candidates.

The saloon question was productive of the bitterest contest of ballots that has ever been waged in this city. As the result of the election fifty saloons will go out of business. A majority of the Good Government league candidates for city trustees were elected.

The saloon adherents rolled up handsome majorities in the precincts of the business section, but in the larger precincts of the residence section those majorities were overcome. Nearly 4500 votes were cast.
